Victoria is an associate in the [divorce and family](#) team.

Victoria deals with the full range of family law issues. That includes advising on the issues arising from the breakdown of a marriage or cohabiting relationship (both the financial claims arising, and any disputes involving children). It also includes pre and postnuptial agreements.

Those who have worked with Victoria describe her as a calm and level headed problem solver who is utterly dedicated to her clients and determined to fight for their success. She combines the shrewd judgement needed to deliver what is most important for a client with the ability to explain the law accessibly and with empathy.

Victoria also acts as a knowledge lawyer for her family team colleagues - she helps with technical advice and research on challenging cases, and runs team training on the most recent developments in the law.
